Are you interested in participating in research?

The McLean Hospital Geriatric Psychiatry Research Program is interested in learning about how a dietary supplement causes metabolic changes in the brain in those with Mild Cognitive Impairment and mild Alzheimer's Disease.

You may be eligible to participate in a research study conducted at McLean Hospital, an affiliate of Harvard Medical School if you:

- Are between the ages of 55-89 years old
- Have a diagnosis of Mild Cognitive Impairment or mild Alzheimer's Disease
- Are fluent in English
- Have a study partner that can attend research visits at McLean with you

This study consists of:

- 3 in-person research visits with our study staff and weekly phone calls over 3 months
- In-person research visits will include an MRI scan, a blood draw, and tests of your memory and thinking
- Receiving a Vitamin B3 dietary supplement, Nicotinamide Riboside, on a daily basis.
- You will receive up to $445 in compensation for participating in this study, $85 for the screening visit and $120 for each visit to McLean.
- To enroll in this study or for further information about this study, please contact Isabella Santangelo at 617-855-2499 or isantangelo@mclean.harvard.edu.
